Clear a firebreak, not less than three (3) metres wide with a four (4) metre vertical clearance completely surrounding and not more than twenty (20) metres from the perimeter of all buildings, haystacks and fuel storage areas within the property.

**General Fire Hazard Reduction**

All property owners are required to reduce fire hazards on their property prior to the summer season by maintaining grassed areas as far as reasonably practicable, to 50mm in height over the entire area, by slashing or the application of stock. It is recommended that property owners program their hazard reduction in conjunction with the clearing and maintenance of firebreaks. Hazard Reduction Orders **will** be issued where landowners have failed to reduce fire hazards.

**Installation of a Building Protection Zone**

- The first 5m around all buildings is to be cleared of all flammable material. Reticulated gardens may be located in this zone;
- The spacing of trees should be 15-20 metres apart to provide for a separation of 10 metres between crowns;
- Trees are to be under/low pruned at least to a height of 2 metres;
- No tall shrub or tree is to be planted within 2 metres of a building including windows

**Alternative Firebreaks**

If it is impractical for you to clear a firebreak along your boundary you can request permission from the Shire to install a firebreak in an alternative location or of a different nature. All requests must be in writing to the Shire and received by **1 October**.

**Harvesting operations (including stubble processing)**

The Shire will permit harvesting operations, including stubble processing, during the Restricted and Prohibited period on the following conditions—

- That a fully operational firefighting unit (inclusive of associated pump, hose system and a minimum of 400 litres of water is present) at all times.
- Harvesting operations, and stubble processing, are not permitted when the Shire has declared a Harvest and Vehicle Movement Ban, including Hot Works Activities.

**Harvesting operations (including stubble processing) on Sunday and Public Holidays, excepting Christmas, Boxing Day and New Year's Day, will be permitted on the following conditions, in addition to the conditions above—**

- The Local Fire Control Officer is notified.
- Two (2) able-bodied adult persons are present during the harvesting operations, only one (1) of whom may be harvesting.

**Restricted and Prohibited Burning Periods**

Burning is prohibited from 1 December to 31 March. Permits are required from 19 October to 30 November and 1 April to 31 May.

**Control of operations likely to cause a fire**

Property owners should take care to prevent bush fires. The operation of welding equipment and angle grinders are activities likely to create a fire danger when used in the open air. A person shall provide at least one fire extinguisher at the place where welding or cutting operations are carried out and surround this place with a firebreak which is at least five (5) metres wide.

**HOT WORKS, HARVEST AND MOVEMENT OF MACHINERY BAN WILL BE IN PLACE ON CHRISTMAS, BOXING DAY AND NEWS YEARS DAY**

**The following restrictions apply throughout restricted and prohibited periods—**

- No burning on Sundays and Public Holidays
- No burning of garden refuse
- No lighting of camp fires or solid fuel BBQs in the open air in the Shire of Chittering
- Burning of road side verges is prohibited without written approval from the Shire of Chittering or other authorities.

**Burning is prohibited between—**1 December to 31 March
