Land Valuers Licensing Act 1978

**Land Valuers Licensing (Remuneration)
Notice 2007**

Made by the Land Valuers Licensing Board under section 25 of the Act with the approval of the Minister.

1. Citation

This notice is the *Land Valuers Licensing (Remuneration) Notice 2007*.

2. Terms used in this notice

In this notice, unless the contrary intention appears —

“appropriate maximum amount of remuneration” means the appropriate maximum amount of remuneration —

- (a) chargeable in respect of the valuation of, or the assessment of rental in relation to, a property; and
- (b) specified in the Schedule item 1 or 2, as the case requires;

“assessment” includes a reassessment;

“valuation” includes a revaluation.

3. GST and disbursements

- (1) In this clause —

“GST” has the same meaning as in the *A New Tax System (Goods and Services Tax) Act 1999* of the Commonwealth.

- (2) The amounts of remuneration specified in this notice —
 - (a) are inclusive of any GST that is applicable; and
 - (b) do not include disbursements.

4. Maximum amounts of remuneration

- (1) Except as otherwise provided in this clause, the amount specified opposite a service specified in the Schedule is fixed as the maximum amount of remuneration for that service.
- (2) If the valuation by a licensed valuer of a property is as at a date 3 years or more before the date on which the licensed valuer

received instructions to perform the valuation, the maximum amount of remuneration fixed for that service is 1.25 times the maximum amount of remuneration specified opposite that service in the Schedule item 1.

- (3) If, other than in the circumstances referred to in subclause (4) —
- (a) a licensed valuer reasonably does not consider that the circumstances of a valuation or assessment are adequately or appropriately dealt with in this notice; and
 - (b) the client to be charged has given prior written approval to the remuneration being determined under this subclause,

the licensed valuer may charge a maximum amount of remuneration of \$295 per hour or part of an hour for time spent on the valuation or assessment, in lieu of the amount specified in this notice.

- (4) If, when acting pursuant to an agreement or appointment under the *Commercial Tenancy (Retail Shops) Agreements Act 1985* section 11(3) or as a determinator —
- (a) a licensed valuer reasonably does not consider that the circumstances of a valuation or assessment are adequately or appropriately dealt with in the Schedule item 3(f) or (g); and
 - (b) the client to be charged has given prior written approval to the remuneration being determined under this subclause,

the licensed valuer may charge a maximum amount of remuneration of \$335 per hour or part of an hour for time spent on the valuation or assessment, in lieu of the amount specified in the Schedule.

- (5) If —
- (a) a licensed valuer —
 - (i) has at least 10 years demonstrable experience as a licensed land valuer; or
 - (ii) has been admitted as an Associate, Fellow or Life Fellow member of the Australian Property Institute as a Certified Practising Valuer (or its equivalent status) for at least 10 years;
- and
- (b) the client to be charged has given prior written approval to the increase,

the maximum hourly rates specified in the Schedule items 3, 4, 5 and 7 and under subclauses (3) and (4) that the licensed valuer may charge are increased by a factor of 1.35.

5. Scope of maximum amounts of remuneration

- (1) The maximum amount of remuneration specified in the Schedule item 1 is, subject to this notice, chargeable in respect of each separate property concerned.
- (2) For the purposes of charging remuneration, 2 or more lots in an existing or proposed subdivision are to be taken to be one separate property if a plan of subdivision is furnished or available.
- (3) In subclause (2) —
“lot” includes any residue remaining after subdivision of the land concerned.

6. Joint valuations

If 2 or more licensed valuers are jointly instructed to value, or assess the rental of, a property and duly carry out that instruction, each of those licensed valuers may charge the appropriate maximum amount of remuneration in respect of that valuation or assessment.

7. Maximum amount of remuneration for ascertainment of partial interests

A licensed valuer who is instructed —

- (a) to value a partial interest in; or
- (b) to assess a partial interest in the rental of,

a property, and duly carries out that instruction, may charge the appropriate maximum amount of remuneration in respect of the full valuation or of the full amount of the assessed rental of the property, as the case requires.

8. Repeal

The *Land Valuers Licensing (Remuneration) Notice 2003* published in the *Gazette* of 12 December 2003 at pages 5034-5036 is repealed.

”.

5. Section 2.9 amended

Section 2.9 is deleted and the following is inserted—

“

2.9 If a *service provider* will need to undertake a *required augmentation* in order to provide a *covered service* sought in an *access application* then—

- (a) if the *service provider* is Electricity Networks Corporation and requires a *capital contribution* under section 5.17A in respect of an *Appendix 8 augmentation*, then—
 - (i) if the *applicant* provides the *capital contribution* for the *required augmentation*, or the *applicant* and the *service provider* reach agreement on the terms on which the *applicant* will provide the *capital contribution*—the *service provider* must undertake and fund the *required augmentation*; and
 - (ii) otherwise—the *service provider* is not required to undertake or fund the *required augmentation*;

and

- (b) if section 2.9(a) does not apply, then—
 - (i) if all of the forecast new facilities investment for the *required augmentation* meets the new facilities investment test—the *service provider* must undertake and fund the *required augmentation*; and
 - (ii) if only part or none of the forecast new facilities investment for the *required augmentation* meets the new facilities investment test—then—
 - (A) if the *applicant* provides the *capital contribution* for the *required augmentation* determined under the *capital contributions policy*, or the *applicant* and the *service provider* reach agreement on the terms on which the *applicant* will provide the *capital contribution*—the *service provider* must undertake and fund the *required augmentation*; and
 - (B) otherwise—the *service provider* is not required to undertake or fund the *required augmentation*.

”.

A8.2 This Appendix 8 applies only in respect of the following *augmentations* to the *SWIN* (“**Appendix 8 augmentations**”)—

- (a) a *subdivision* under clause A8.4; and
- (b) a *pole to pillar connection* under clauses A8.5 to A8.6; and
- (c) the development of buildings under clause A8.7; and
- (d) a *Supply Extension Scheme* under clauses A8.8 to A8.15; and
- (e) *augmentations* in excess of standard requirements under clause A8.16; and
- (f) specified *temporary connections* under clause A8.17 and A8.18; and
- (g) streetlights, *unmetered connections*, *relocations*, undergrounding and some *temporary connections* under clause A8.19.

General principles

A8.3 A *capital contribution* for an *Appendix 8 augmentation* (other than a flat fee under clauses A8.5 and A8.17) must not exceed the *forecast new facilities investment* that would be forecast to be incurred for the *augmentation* by a *service provider* efficiently *minimising costs*.

Subdivisions

A8.4 The maximum capital contribution for an applicant who—

- (a) undertakes a *subdivision*; and
- (b) seeks an *augmentation* (other by a *pole to pillar connection*) of the *distribution system* to service the *subdivision*,

is the *forecast new facilities investment* for any *required augmentation* which is or will be located within the boundaries of, or adjacent to, the land being *subdivided*.

Pole to pillar connections

A8.5 The maximum *capital contribution* for a *pole to pillar connection* is a flat fee determined under clause A8.6.

A8.6 Electricity Networks Corporation may from time to time set a flat fee for *pole to pillar connections*, which fee must be calculated to the standard of a *reasonable and prudent person* and in such a way that, over a reasonable forecasting period, the forecast revenue from applying the flat fee to all *pole to pillar connections* installed during the period (“**forecast connections**”) is forecast not to exceed—

(a) the sum of forecast new facilities investment which would be incurred for the forecast connections by a service provider efficiently minimising costs;

minus

(b) the anticipated incremental revenue for the forecast connections.

Development of buildings

A8.7 Where an *applicant* seeks a connection to the *SWIN* in respect of—

(a) multiple *residential premises*, including multi-storey buildings, excluding—

(i) residential premises in respect of which a pole to pillar connection is required under a written law or statutory instrument; and

(ii) connections which are SES augmentations;

or

(b) commercial premises in relation to which the applicant will not become a substantial consumer; or

(c) mixed residential premises and commercial premises in relation to which the applicant will not become a substantial consumer,

the maximum capital contribution by the applicant is the forecast new facilities investment for the required augmentation.

The Supply Extension Scheme

Initiating or joining an SES

A8.8 An *applicant*, or group of *applicants*, for whom the *required augmentation* is an *SES augmentation*, may apply to Electricity Networks Corporation to either join an existing *scheme* or initiate a new *scheme*.

A8.9 If the *SES augmentation* sought by the *applicants* in clause A8.8 is to be connected to *network assets* which are covered by an existing *scheme*, then a new *scheme* must be initiated if—

(a) the forecast new facilities investment for the SES augmentation exceeds the average cost for the existing scheme; or

(b) the existing scheme commenced more than 10 years ago.

Contribution for applicant initiating a scheme

A8.10 If a single applicant initiates a scheme, the maximum capital contribution for the applicant is the forecast new facilities investment for the SES augmentation.

A8.11 If a group of applicants initiate a scheme, the maximum capital contribution for each applicant within the group is the average cost for the scheme.

Contribution for applicant joining an existing scheme

A8.12 If an applicant joins an existing scheme, the maximum capital contribution for the applicant is the new average cost for the scheme, calculated by adding the forecast new facilities investment for the required augmentation for the applicant to the previous total cost and calculating a new average cost taking into account the new applicant's connection point.

A8.13 In this circumstance the capital contribution to be made by the new applicant will comprise a component in payment of the forecast new facilities investment for the new connection, and a rebate component in accordance with clause A8.14 and A8.15.

Rebate to continuing scheme members

A8.14 If an *applicant* joining a *scheme* causes a decrease in the *average cost* for the *scheme*, Electricity Networks Corporation must, after it receives the *applicant's capital contribution* to join the *scheme* and the connection is completed, make a payment to the existing *scheme members* (excluding the *applicant*) of an amount equal to the difference between the *average cost* immediately before the *applicant* joined the *scheme* and the new *average cost* applying after the *applicant* joined.

Rebates will not be paid after 10 years

A8.15 To avoid doubt, the effect of clause A8.9(b) is that a rebate will only be paid under clause A8.14 within the first 10 years after a *scheme* commences.

Augmentations in excess of standard requirements

A8.16 If

(a) an *applicant* seeks to have *network assets* constructed (“**requested assets**”) which Electricity Networks Corporation, in accordance with *good electricity industry practice*, considers are in addition to what is required to meet standard supply arrangements; and

(b) the *forecast new facilities investment* for the *requested assets* (“**requested investment**”) exceeds the *forecast new facilities investment* which would be required if the connection was constructed in accordance with standard supply arrangements (“**standard investment**”),

then—

- (c) the maximum *capital contribution* in respect of the *standard investment* is to be determined under the provisions of this Code and the *access arrangement* which apply to the type of connection in question; and
- (d) in addition, the maximum *capital contribution* may include the difference between the *requested investment* and the *standard investment*.

Temporary connections

- A8.17 If a flat fee is determined under clause A8.18 for a class of *temporary connection*, then the maximum *capital contribution* for the class of *temporary connection* is the flat fee.
- A8.18 Electricity Networks Corporation may from time to time set a flat fee for *temporary connections*, which fee must be calculated to the standard of a *reasonable and prudent person* and in such a way that, over a reasonable forecasting period, the forecast revenue from applying the flat fee to all *temporary connections* installed during the period (“**forecast connections**”) is forecast not to exceed the sum of *forecast new facilities investments* which would be incurred for the *forecast connections* by a *service provider* efficiently minimising costs.

Streetlights, unmetered connections, relocations, undergrounding and some temporary connections

- A8.19 The maximum *capital contribution* for an *applicant* who seeks—
- (a) a modified or new streetlight, including provision of a new streetlight asset;
 - (b) an *unmetered connection*;
 - (c) to have an existing *network asset* relocated;
 - (d) to have an existing overhead *network asset* or connection undergrounded;
 - (e) a *temporary connection* if Electricity Networks Corporation has not set a fee for that class of *temporary connection* under clause A8.18,
- is the *forecast new facilities investment for the required augmentation*.

Appendix 9—Transitional provisions for the SWIN queue

Definitions

- A9.1 In this Appendix 9—
- “**application and queuing policy**” means the *application and queuing policy in the SWIN access arrangement*.
- “**connection application**” means an *access application classified as such under the application and queuing policy*.
- “**electricity transfer application**” means an *access application classified as such under the application and queuing policy*.
- “**material amendment**” means, subject to clause A9.10, an amendment to an access application which is either or both of—
- (a) a “material amendment” as that expression is used in the *application and queuing policy*; or
 - (b) an amendment which would result in the amended *transitioned application* being “materially different” from the *prior application* as that expression is used in clause 24.12(b) of the *application and queuing policy*.
- “**prior applicant**” means the person who lodged a *prior application* and is deemed to have lodged the corresponding *transitioned application*.
- “**prior application**” means an “access application” (as defined in the *previous regulations*) and includes any additional information provided under the *previous regime* before 1 July 2007 by the *prior applicant* in relation to that *access application*.
- “**transitioned application**” means a *prior application* having effect as an *access application* under clause A9.3 and, if applicable, includes each of the deemed *connection application* and *electricity transfer application* under clause A9.5.

Application of this Appendix

- A9.2 This Appendix 9 applies only in respect of the *SWIN*, and applies despite the changes made to the *previous regulations* on 1 July 2007 and the repeal of sections 90 and 91 and Schedules 5 and 6 of the *Electricity Transmission and Distribution Systems (Access) Act 1994*.

Transitioning of prior applications

- A9.3 A *prior application* has effect for the purposes of this Code and the *SWIN access arrangement* as though it was an *access application* lodged under this Code and the *SWIN access arrangement*.
- A9.4 A *transitioned application* is deemed to have been lodged at the time the corresponding *prior application* was lodged.
- A9.5 To the extent necessary to enable the *transitioned application* to comply with the *application and queuing policy*, it is to be regarded as two separate *access applications*, being a *connection application* and an *electricity transfer application*.

New queuing etc rules apply to transitioned applications

A9.6 From 1 July 2007, a *transitioned application* is to be dealt with in accordance with this Code and the *SWIN access arrangement*, despite having been lodged and previously dealt with in accordance with the *previous regime*.

Updating a transitioned application

A9.7 By no later than 14 July 2007 Electricity Networks Corporation must give notice to each *prior applicant*—

- (a) advising that the *prior applicant's prior application* has been transitioned under clause A9.3; and
- (b) if applicable, advising that the *prior application* will have effect as a deemed *connection application* and *electricity transfer application* under clause A9.5. and
- (c) for each *covered service* sought by the *prior application*, Electricity Networks Corporation's proposal as a *reasonable and prudent person* for—
 - (i) the *reference service* to be substituted for the covered service sought by the prior application;
 - (ii) the *reference tariff* to apply for the reference service;
 - (iii) the terms and conditions to apply to the reference service (including its proposal, if applicable, for completing any blanks in the standard access contract);

and

- (d) advising that the *prior applicant* is not obliged to accept Electricity Networks Corporation's proposals under clause A9.7(c); and
- (e) specifying (to the extent reasonably practicable in accordance with *good electricity industry practice*) all additional information required from the *applicant* to cause the *transitioned application* to comply with this Code and the *SWIN access arrangement* and to enable Electricity Networks Corporation to process the *transitioned application* and, if applicable, make an *access offer*.

A9.8 Within 30 *business days* after receipt of a notice referred to in clause A9.7, the *prior applicant* must give Electricity Networks Corporation a notice setting out, for each service sought by the *prior application*, either—

- (a) the *prior applicant's* acceptance of Electricity Networks Corporation's proposals under clause A9.7(c); or
- (b) the *prior applicant's* counter-proposal in respect of those matters.

A9.9 A notice from a *prior applicant* under clause A9.8—

- (a) is an amendment to the relevant *transitioned application* under clause 3.13(a) of the *application and queuing policy*; and
- (b) if given under clause A9.8(a) is not a *material amendment*; and
- (c) if given under clause A9.8(b), can (subject to clause A9.10), but does not necessarily, amount to a proposal for a *material amendment*,

A9.10 A response under clause A9.8(b) is not a *material amendment* if the response would result in a *transitioned application* which is either (or both of)—

- (a) not materially different from the *prior application*; or
- (b) not materially different from what the *transitioned application* would have been if the *prior applicant* had accepted Electricity Networks Corporation's proposals under clause A9.7(c);

Assessing whether prior applicant's election might amount to a material amendment

A9.11 Before giving a notice under clause A9.8(b), a *prior applicant* may submit a draft of the notice to Electricity Networks Corporation seeking Electricity Networks Corporation's view as a *reasonable and prudent person* on whether the notice might amount to a *material amendment* if submitted in that form.

A9.12 Electricity Networks Corporation must respond to a request under clause A9.11 within 5 *business days* with its view as a *reasonable and prudent person* as to whether the draft notice would, or would not, amount to a *material amendment*.

Transitioned applications temporarily preserved

A9.13 Despite anything to the contrary in the *SWIN access arrangement*, a *transitioned application* must not be rejected, and cannot have its priority amended or be deemed to have been withdrawn, unless—

- (a) Electricity Networks Corporation has given notice under clause A9.7; and
- (b) the *prior applicant* has given a notice under clause A9.8 or the time for doing so has expired,

and thereafter a *transitioned application* may only be rejected, have its priority amended or be deemed to have been withdrawn in accordance with the *application and queuing policy*.

Time periods restart after exchange of notices

A9.14 For the purposes only of determining a time period under the *application and queuing policy*, a *transitioned application* is deemed to have been lodged on the date the *prior applicant* gives a notice under clause A9.8 or the time for doing so expires.

An attractively presented set of 4 Bound Volumes
of Government Gazette

For Government Departments and private firms who presently arrange binding for their copies of Government Gazettes, the State Law Publisher is now offering a subscription covering 4 Quarterly Volumes at a cost of \$1,098.90.

The Gazettes will be bound in black cloth with gold foil lettering on the spine and personalised by the addition of the client's name in gold lettering on the front cover.

PLEASE NOTE

On the rare occasion where extra gazettes are published in one quarter, a fifth volume may be required. In this instance the extra cost involved will be borne by the State Law Publisher and not passed on to clients.

WANTED!!!

Old copies of the *Government Gazette*

State Law Publisher is in the process of scanning all *Government Gazettes* (back to the first one ever published in the 1840's) with the intention of adding the archived copies to our existing on-line service.

We are looking for donations of any copies (pre 1994) that are no longer required by clients and would be appreciative of any assistance you can offer in this undertaking.

The scanning process requires single pages, therefore we need to trim the spine off each gazette, which unfortunately ruins the gazettes for future use.

Our preference is for unwanted copies, however, if a client requires their gazettes returned, State Law Publisher will reprint and replace individual editions. If a bound copy is supplied and is to be returned we will reprint all gazettes and arrange to have them rebound for the client.

The benefits of having all the gazettes and indices on-line and searchable will be enormous. This service should remove the need for clients to retain hard copies and will free up valuable storage space.

Barring any unforeseen delays, it should take around a month to scan each year and then release on our website.

Please contact John Thompson on 9426 0010 if you can assist by supplying editions of the *Government Gazette*. For large quantities we will arrange for them to be collected.
