Made by the Minister under section 10B of the Act.

1. **Citation**  
This notice is the *Shark Bay Scallop Managed Fishery Voluntary Fisheries Adjustment Scheme Notice 2010*.

2. **Interpretation**  
In this notice—  

authorisation means a commercial fishing licence, a fishing boat licence, or a managed fishery licence;
committee means the West Australian Trawl and Related Fisheries Voluntary Fisheries Adjustment Scheme Committee of Management established by written instrument dated 8 April 2009, made under section 11 of the Act and varied by written instrument dated 21 January 2010;

Fishery means the Shark Bay Scallop Managed Fishery as declared in the Shark Bay Scallop Management Plan 1994;

managed fishery licence means a Class A managed fishery licence that authorises a person to fish in the Fishery as a Class A licence holder;

Related Fisheries means any other fishery in which a person authorised or entitled to fish in the Fishery as a Class A licence holder is also authorised or entitled to engage in fishing in accordance with an authorisation;

scheme means the Shark Bay Scallop Managed Fishery Voluntary Fisheries Adjustment Scheme 2010 established by clause 3.

3. Establishment of fisheries adjustment scheme
A fisheries adjustment scheme is established in respect of the Fishery and the Related Fisheries to be known as the Shark Bay Scallop Managed Fishery Voluntary Fisheries Adjustment Scheme 2010.

4. Objective
The objective of the scheme is to reduce the size of the Fishery and the Related Fisheries by reducing—

   (a) the number of Class A managed fishery licences in the Fishery;

   (b) the number of authorisations in the Related Fisheries;

   (c) the number of boats specified on Class A managed fishery licences that may be used for fishing in the Fishery; and

   (d) the number of boats that may be used for fishing in the Related Fisheries.

5. The fishery to which the scheme applies
The fishery to which the scheme applies is the Fishery and the Related Fisheries.

6. Who may offer to surrender an authorisation
Any person who is the holder of a Class A managed fishery licence that authorises the person to fish in the Fishery is entitled to offer the surrender of an authorisation.

7. Manner of operation
The manner of operation of the scheme shall be that—

   (a) invitations for offers to surrender authorisations shall be made in accordance with section 10C(4) of the Act and not later than 21 days after this notice is published in the Government Gazette; and

   (b) any offer shall be submitted to the committee in the form approved by the committee; and

   (c) the committee shall forward any offers to the Minister and advise the Minister whether to accept or decline any offer or to make a counter offer; and

   (d) the Minister shall respond to any offer in accordance with section 10C(5) of the Act after considering any advice of the committee.

8. Duration of the scheme
The scheme shall commence operation on the date it is published in the Gazette and cease operation on 1 July 2021.

9. Terms of the scheme
The terms of the scheme are that, provided the objective specified in clause 4 is attained, compensation in an amount agreed between the Minister and the holder of an authorisation shall be paid for the surrender of the authorisation.

Dated this 15th day of December 2010.

NORMAN MOORE, Minister for Fisheries.

BUSH FIRES ACT 1954

Shire of Chittering

FIREBREAK NOTICE 2010/11

Shire of Chittering hereby gives notice pursuant to Section 33 of the Bush Fires Act 1954 to all land owners and occupiers of land in its Shire, to, on or before 16 October, annually establish firebreaks on all land and properties, not less than three (3) metres wide, and four (4) metres vertical height around the inside of their property, clear of all flammable materials and thereafter maintain such firebreaks clear of all flammable materials until 31 May of the following year, unless specified otherwise in this Notice.

Rural Residential and Shire Town sites with land equal to or less than 2.2 hectares

Do not require firebreaks but are required to follow General Fire Hazard Reduction.
All properties, including Rural Residential and Shire Town sites with land greater than 2.2 hectares
Must clear a firebreak of all flammable materials three (3) metres wide, with a four (4) metre vertical clearance along the inside of the boundary to the property.

Land Greater than 120 hectares
Land with an area of 120 hectares or more must have a firebreak in such a position which divides the land into areas not exceeding 120 hectares.

Fire Management Plans
When Fire Management Plans have been implemented as part of a subdivision, property owners must ensure their property meets the requirements as outlined in the Fire Management Plan. Property owners should seek clarification from the Shire of Chittering if they are unsure in regards to their responsibilities and the requirements contained within their Fire Management Plan and this Firebreak Notice.

Buildings, Haystacks and fuel storage
Clear a firebreak not less than three (3) metres wide with a four (4) metre vertical clearance completely surrounding and not less than twenty (20) metres from the perimeter of all buildings, haystacks and fuel storage areas within the property.

General Fire Hazard Reduction
All property owners are required to reduce fire hazards on their property prior to the summer season by maintaining grassed areas as far as reasonably practicable, to 50 mm in height over the entire area, by slashing or the application of stock. It is recommended that property owners program their hazard reduction in conjunction with the clearing and maintenance of firebreaks. Hazard Reduction Orders may be issued where landowners have failed to reduce fire hazards.

Alternative Firebreaks
If it is impractical for you to clear a firebreak along your boundary, you can request permission from the Shire to install a firebreak in an alternative location or of a different nature. All requests must be in writing to the Shire and received by 1 October.

Harvesting operations (including stubble processing)
Council will permit harvesting operations including stubble processing during the Restricted and Prohibited period, including on Sundays and Public Holidays, but excepting Christmas Day, Boxing Day and New Years Day on the following conditions—

(a) The Local Fire Control Officer is notified.
(b) That a fully operational fire fighting unit (inclusive of associated pump, hose system and a minimum of 600 litres of water) is present at all times.
(c) Harvesting operations and stubble processing are not permitted when Council have declared a Harvest and Vehicle Movement Ban including any Hot Works activities.

Harvesting operations (including stubble processing) on Sundays and Public Holidays
In addition to the conditions above, will be permitted on Sundays and Public Holidays with the proviso that two (2) able-bodied adult persons are present during the harvesting operations, only one (1) of whom may be harvesting.

Restricted and Prohibited Burning Periods
Burning is prohibited from 1 December to 31 March. Permits are required from 19 October to 30 November and from 1 April to 31 May.

Lighting fires on your property can be extremely dangerous. To help reduce the risk, prohibited and restricted burning times are set according to seasonal conditions and may be adjusted. These dates indicate when you are required to seek a Burning Permit and when lighting fires is prohibited. There is a requirement to notify neighbours of a planned burn.

Control of operations likely to cause a fire
Property owners should take care to prevent bush fires. The operation of welding equipment and angle grinders are activities likely to create fire danger when used in the open air. A person shall provide at least one fire extinguisher at the place where welding or cutting operations are carried out and surrounded this place with a firebreak which is at least five (5) metres wide.

Penalties
Failure to comply with this Fire Break Notice may result in fines ranging from $250 to $5,000.

For updates on Hot Works, Harvest and Movement of Machinery Bans, please ring the information line on 9576 0219 (recorded message).

The following restrictions apply throughout restricted and prohibited periods
No burning on Sundays and Public Holidays.
No burning of garden refuse.
No lighting of camp fires or solid fuel BBQs in the open air in the Shire of Chittering.
**Roadside verge**

Burning of roadside verges is prohibited without written approval from the Shire of Chittering or other authorities.

**Note**

Fire Control Officers are not obliged to issue permits and they may advise on alternatives to burning. Please remember Fire Control Offices are volunteers and their availability to issue permits may vary, assist them by planning in advance. Permits cannot be issued over the phone.

Burning is prohibited on any day when the fire danger index reaches “Very High”, “Severe”, “Extreme” or “Catastrophic” or a “Total fire Ban” has been declared.

All previous Fire Break Notices are hereby revoked.

HARRY HAWKINS, Chief Executive Officer.

SECURITY AND RELATED ACTIVITIES (CONTROL) ACT 1996
Section 94(2)(a)

WA SECURITY INDUSTRY CODE OF CONDUCT

In accordance with Regulation 54A(5) of the Security and Related Activities (Control) Regulations 1997, the WA Security Industry Code of Conduct (which has been approved by the Minister for Police) is published in the Government Gazette.

K. J. O’CALLAGHAN APM, Commissioner of Police.
WA SECURITY INDUSTRY CODE OF CONDUCT

This Code of Conduct is formulated under the provisions of Section 94 of the Security and Related Activities (Control) Act 1996 and complies with Regulation 54A of the Security and Related Activities (Control) Regulations 1997.

The Code outlines the responsibilities for ALL licensees carrying out tasks relating to the provision of supplying, consultation, installation and management of security services in Western Australia. This Code of Conduct will—

• Promote consumer and community confidence;
• Improve the safety of the community and employees;
• Promote ethical and professional conduct;
• Ensure that operators comply with applicable Federal and Western Australian legislation, in particular the Security and Related Activities (Control) Act 1996 and the Security and Related Activities (Control) Regulations 1997.

Minimum Standards of the Professional Code of Conduct

Persons engaged in the provision of security or related services as detailed above shall—

• Conduct their professional activities with respect to and promotion of the public interest;
• At all times act with integrity in their dealings with the regulatory authority, clients, suppliers, employees, fellow licence holders and the general public;
• Not intentionally disseminate false or misleading information, whether written, spoken or implied, nor conceal any relevant fact;
• Maintain truth, accuracy and good taste in advertising and sales promotion;
• Not represent conflicting or competing interests without the express consent of those concerned and only after full disclosure of all relevant facts to all interested parties;
• Refrain from knowingly associating with any organisation or industry participants who use unethical, improper or illegal methods for obtaining business;
• Not intentionally injure the professional reputation or practice of another person;
• In the event that evidence is obtained relating to another licensed person being guilty of unethical practices or non compliance with the requirements of the Act or Regulations, inform either the Regulator and/or Security Industry Association of which they are a member.

I undertake to contribute to the body of knowledge for improvement of the profession by exchanging information and experience with industry participants.

I acknowledge, any breach of this Code may result in disciplinary action in accordance with section 67(1a) (d) of the Security and Related Activities (Control) Act 1996.
