GRAIN MARKETING ACT 2002
MINISTERIAL GUIDELINES FOR THE GRAIN LICENSING AUTHORITY
 Issued under Section 16

1. Purpose

The purpose of these guidelines is—

- to assist the Grain Licensing Authority (the Authority) to administer the licensing scheme provisions of the Grain Marketing Act 2002 (the Act);
- to inform persons involved in the grain industry and other members of the community.

2. Guidelines

The purpose of the Act is not to undermine the benefits of single desk marketing arrangements, but to maximise the benefit of competition in the market place while retaining any identified premium arising from the exercise of market power advantages that are available to the main export licence holder.

2.1 Definition of Premium

Key tasks of the Authority are to determine the existence of a “premium”, in the context of section 31(2) of the Act and to assess the effect the issue of a special export licence may have, in the context of section 31(3) of the Act.

Section 31(1) prevents the Authority granting a special export licence with a term beginning prior to 1 November 2003.

Section 31(2) provides that—

Before deciding whether to grant any other special export licence (that is, a licence with a term commencing after 1 November 2003), the Authority is to—

- “(a) ascertain whether the main export licence holder exports prescribed grain to the market for which the special export licence is sought; and
- (b) if so, decide whether the price at which the main export licence holder exports that grain incorporates a premium resulting from the exercise by it of its market power as the main export licence holder.”

In this context, a premium is essentially the market advantage that can be leveraged by the existence of a main export licence; that is, the price that can be achieved through a range of mechanisms used by the main export licence holder to control supply and manage the market place.

In deciding whether a premium exists the Authority should take into account all relevant matters, including—

- the market structure and pertinent trade policies for the relevant prescribed grain in a particular market.
- prices and price trends in the market for the supply of the relevant prescribed grain; and
- the quality and quantity of grain being exported to a particular market.

If the Authority determines that there is a premium in a market for which a special export licence is sought the Authority must consult the main export licence holder (section 31(3)(a)) and must determine if the granting of the special export licence would affect that premium to a significant extent (section 31(3)(b)).

Section 31(3)(b) provides that—

“The Authority cannot grant the special export licence if it considers that to do so would be likely to affect the premium to an extent that the Authority considers to be significant.”

The issue of a special export licence will affect a premium to a significant extent if it will damage current or future market access or damage the ability of the main export licence holder to maintain the premium it currently receives. There may also be other circumstances in which the Authority considers that a premium would be likely to be affected to an extent that the Authority considers to be significant.

The Act does not require the Authority to determine that the premium will be significantly affected, only that this is considered likely.

2.2 Section 31(4)

The only other matter that the Act specifically requires the Authority to take into account before issuing a special export licence is the effect that doing so may have on the State’s reputation as a grain exporter and on the State’s grain industry generally. (See section 31(4))

Beyond the matters referred to in section 31 it is up to the Authority to decide what matters are relevant to be taken into account in determining an application for a special export licence. In most cases these matters will include—

- the predicted production for a season or seasons;
- the main export licence holder’s marketing strategy;
- the ability of the main licence holder to enter into and deliver on long term supply agreements; and
- the world supply, demand and price trends for the relevant prescribed grain and/or its equivalent.

2.3 Report to Minister

The Authority is required to report to the Minister as required by section 20 of the Act.

Section 20 provides that—

The Authority is to report to the Minister annually, and whenever directed by the Minister to do so, on—

- (a) the operation and effectiveness of the licensing scheme in Part 3 of the Act;
- and

4. Vacant land with an area greater than 4,000 square metres.**GRASSED.**

All grass to be slashed to a height no greater than 5cm. If property is stocked, the number of livestock must be able to graze the grass down by the end of December to a safe fuel loading. (Grass flattened)

Install a three metre wide firebreak by removing all dead inflammable matter around and immediately inside all external boundaries of each lot and within twenty metres of and surrounding, the perimeter of any haystacks or stockpiled inflammable matter.

BUSH.

Install a three metre wide firebreak by removing all dead inflammable matter around and immediately inside all external boundaries of each lot and all buildings (also create a twenty metre wide low fuel zone around such areas). All firebreaks are to be cleared to a vertical height of four metres to allow access for emergency vehicles.

Fuel loadings of dead inflammable matter should be maintained at a safe level to enable firefighters to control a fire under wildfire conditions. Fuel loadings need to be maintained under 8 tonnes per hectare.

In some circumstances, eg large blocks, additional requirements may apply.

5. Fuel Dumps and Depots.

Remove all inflammable matter from land where fuel drums ramps or dumps are located, and where fuel drums, whether containing fuel or not, are stored to a distance of at least ten metres outside the perimeter of any drum, ramp or stack of drums.

6. General

The Firebreak Inspection Officers will commence inspection of firebreaks and fire hazards early in the season, and will provide advice on potential fire hazards and suggested remedial measures.

Where the owner or occupier of the land who has received notice fails or neglects to comply with the requisitions within the time specified, the Shire of Kalamunda may, by its officers and with such servants, workmen and contractors, vehicles and machinery as the officers deem fit, enter upon the land and carry out the requisitions of the notice which have not been complied with. The amount of any costs and expenses incurred shall be recovered from you as the owner or occupier of the land.

Although the Bush Fires Act does specify penalties for not taking appropriate fire prevention action, the need for all residents to protect not only their own home and possessions but also those of neighbours and other Shire residents should be the overriding concern.

If the prevention measures are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act, which includes the necessity for permits to burn during the restricted burning season.

Restricted—Permits Required	2nd November to 30th November
	1st April to 30th April

Prohibited—Burning Time (Total Fire Ban) 1st December to 31st March

These Dates Can Be Varied Due To Seasonal Condition. (extended or shortened)

7. Application to vary the above requirements.

If it is impracticable for any reason to clear firebreaks or to remove inflammable matter from the land as required by this notice, you may apply to the Council in writing on or before November 2003 for permission to provide firebreaks in alternative positions, or take alternative measures to abate the fire hazards on the land.

If permission is not granted in writing by Council, you shall comply with the requirement of this notice.

8. Approved methods of fuel reduction

Slashing, mowing, chemical spraying, raking and mowing and Council's kerbside pick up.

Council staff are available to provide advice and further information on requirements, and the various passive and active measures that may be taken to minimise the fire risk of living in the Hills environment.

DAVID VAUGHAN, Chief Executive Officer.
