Clients who have an account will be invoiced for advertising charges.

Clients without an account will need to pay at time of lodging the notice.

## PUBLISHING ALTERATIONS

Periodically the normal *Gazette* publishing times need to be altered to cater for disruption caused by public holidays.

- Easter and Christmas holidays cause disruption each year.
- Australia Day and Anzac Day cause disruption when they fall on a Tuesday or Friday.

In these instances, notices warning of the change are generally published on page 2 for approximately 4 weeks prior to the date.

Readers are urged to check *Gazettes* accordingly, prior to contacting State Law Publisher.

JOHN A. STRIJK, Government Printer.

Commonwealth of Australia

#### PETROLEUM (SUBMERGED LANDS) ACT 1967

#### NOTICE OF INVITATION FOR APPLICATIONS FOR EXPLORATION PERMITS

#### (2002 OFFSHORE ACREAGE RELEASE—WEST AUSTRALIAN ADJACENT AREA)

I, William Lee Tinapple, the delegate of the Designated Authority in respect of the adjacent area of Western Australia, for and on behalf of the Commonwealth-Western Australia Offshore Petroleum Joint Authority, acting pursuant to Section 20(1) of the Petroleum (Submerged Lands) Act 1967, hereby invite applications for the grant of exploration permits in respect of the following Blocks within the areas as described in the following schedule.

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2000, released in January 2001 by the Australian Surveying and Land Information Group (now Geoscience Australia National Mapping Division).

Section 5AAA of the Petroleum (Submerged Lands) Act 1967 provides that, where a change to the baseline of Australia's territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth or State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.

Applications for areas **W02-12 to W02-15** will be received up until 4:00 pm on Thursday, **24 October 2002**.

Applications for areas **W02-1 to W02-11** will be received up until 4:00 pm on Thursday **10 April 2003**.

**APPLICATIONS FOR AREAS—W02-1 TO W02-15**

Applications for the award of a permit over areas W02-1 to W02-15 are required to be made in the approved manner, submitted in duplicate and should be accompanied by—

## 1.1 Details of—

## 1.1.1 Technical Assessment

The applicant's technical assessment of the petroleum potential of the area, including the concepts underlying its proposed exploration work program, with sufficient detail to support that program

## 1.1.2 Minimum Guaranteed Work Program

The applicant's minimum guaranteed proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each year of the first three years of the permit term. This proposal, to be known as the minimum guaranteed work program, should comprise work expected to involve a substantial exploration component - normally, appraisal work should not be included

## 1.1.3 Secondary Work program

The applicant's proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each of the three remaining years of the permit term. This proposal, to be known as the secondary work program, should comprise work expected to involve a substantial exploration component—normally, appraisal work should not be included.

NOTE: Applicants should note it is mandatory that the minimum work program proposed in each year of the exploration permit is stated precisely to avoid any ambiguity. Proposals for work programs that cannot be guaranteed to be undertaken within the first 3 years of the permit must not be included.

## 1.2 Particulars of the applicant—

1.2.1 the technical qualifications of the applicant and of its key employees

1.2.2 the technical advice available to the applicant

1.2.3 the financial resources available to the applicant, including evidence of the applicant's ability to fund the work program proposed, a statement of other exploration commitments over the next 6 years, and a copy of the latest annual and quarterly reports for each applicant company

1.2.4 where relevant, the viability of the consortium lodging the application, including evidence that a satisfactory settlement has been, or can be, reached on the Joint Operating Agreement (a copy of a signed Heads of Agreement dealing will generally suffice), and

1.2.5 the percentage participating interest of each party to the application.

## 1.3 Other Information

Such other information as the applicant wishes to be taken into account in consideration of the application. Where an applicant has previously had an exploration permit cancelled such information might include why the applicant believes the prior failure is irrelevant to the current application.

## 1.4 Fee

Each application must be accompanied by a fee of \$A3,000, payable to the Commonwealth of Australia through an Australian bank or bank cheque.

An information package on the release areas detailing the work program bidding system outlined above and including the criteria for assessment of applications and the conditions to apply following the award of a permit, is available on the Department of Industry, Tourism and Resources Website at [www.industry.gov.au/petexp](http://www.industry.gov.au/petexp), or on CD-ROM. Copies of the CD-ROM can be obtained through the Department of Industry, Tourism and Resources by e-mailing [petroleum.exploration@industry.gov.au](mailto:petroleum.exploration@industry.gov.au).

***Obtaining and observing the release package is essential to making an informed application for any of the areas.***

The Government will also publish on-line data about Australia's petroleum exploration opportunities. This spatial data gives key hydrocarbon well information (about hydrocarbon shows, biostratigraphic age, porosity and depositional environment) and will be released on the Geoscience Australia internet site at [www.ga.gov.au](http://www.ga.gov.au) free of charge.

It should be noted that any income derived in the future from the recovery of petroleum from these areas will be subject to the Commonwealth Government's Resources Rent Tax.

**Lodgement of Applications**

Applications for areas **W02-12 to W02-15** must be lodged before 4:00 pm on Thursday, **24 October 2002**.

Applications for areas **W02-1 to W02-11** must be lodged before 4:00 pm on Thursday **10 April 2003**.

Applications, together with supporting data should be submitted in the following manner to—

Director Petroleum Division  
Department of Mineral and Petroleum Resources  
Level 11, Mineral House  
100 Plain Street  
EAST PERTH, WESTERN AUSTRALIA 6004  
Attention: Petroleum Applications Receiving Officer

The following special instructions should be observed—

- two copies of the application and supporting data together with the application fee should be sealed in an envelope or package, clearly marked “Application for Exploration Permit Area ... Commercial-in-Confidence”; and
- further enclosed in a plain covering envelope or package and delivered by hand or posted to the above address.

Receipts for applications (received and delivered by hand) will be issued by the Petroleum Applications Receiving Officer.

Enquiries concerning this gazettal should be referred to—
