Notice of Intention to Construct Major Works

File F13246. Project S52.008.

NOTICE is hereby given in accordance with section 88 of the Water Authority Act 1984, of the intention of the Water Authority to undertake the provision or construction of the following works:—

Sewerage—Boddington, Reticulation Areas 1A and 1B
Pumping Station No. 1 and Pressure Main and
Wastewater Treatment Plant
Shire of Boddington

The proposed works consist of the construction of:—

- (a) below ground sewer reticulation pipelines of up to 300 millimetres diameter;
- (b) a below ground sewage pumping station;
- (c) a below ground pressure pipeline of 150 millimetres diameter;
- (d) a wastewater treatment plant consisting of three oxidation ponds in series with summer discharge to an on site storage pond. Effluent will be released during the winter months into a nearby creek.

All of the works are to be constructed complete with man-holes and all necessary apparatus.

The purpose of the proposed works is to provide an effective wastewater collection, conveyance and treatment facility to sewer the existing properties and the proposed new residential subdivision in the town of Boddington. These works are considered necessary due to the poor operation of on site disposal systems in this location.

Provisions for Charging: When the works are completed, owners of land within the area will be required to pay Water Authority sewerage rates whether or not they connect to the sewer. For eligible pensioners, concessional rates are available or payment may be deferred until eligibility ceases.

Further inquiries may be made and plans of the proposed works may be inspected at the Water Authority, Narrogin, and at the Customer Services Branch of the Water Authority, John Tonkin Water Centre, 629 Newcastle Street, Leederville, between the hours of 8.00 am and 5.00 pm Monday to Friday.

Note

Section 89 of the Water Authority Act 1984 provides that any Council or person interested may lodge a written

objection with the Authority against the construction or provision of the proposed works, within one month after the date of publication of the above notice.

After the period for receipt of objections has expired and the objections, if any, have been met by amendment of the proposal or are not sufficient to cause the proposal to be amended when considering the general public interest, the Minister may make a Notice of Authorisation which is published in the *Government Gazette* authorising the Water Authority to carry out the construction or provision of the proposed works.
