Release Date:  Friday 30 November 2007
Closing Date:  Thursday 31 January 2008

AREAS AVAILABLE

Applications are invited for the grant of an exploration permit over the following discrete area within Western Australia's onshore Perth Basin as identified on the attached plan.

Applications will be received up until 4.00 pm on Thursday, 31 January 2008. Applications need to observe the closing time and date. Any applications received after the closing time and date will not be considered.

Onshore Area

AREA L07-13

1:000:000 Map Sheet (SH50) Perth

Block No. Block No.

6168 6169

6240A 6241A

Assessed to contain 4 blocks.

APPLICATION DETAILS

Central to any application made is the program of work proposed for each of the years of the six year term. Applications are to be made in accordance with Section 31 of the Petroleum Act 1967. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant’s technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities eg, National Parks, Nature Reserves, Marine Parks, World Heritage Areas, Conservation Reserves, Defence Areas and Mining Titles.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy, at least, is such that petroleum extraction from within National Parks, Nature Reserves and access to Conservation Estates should not be presumed.

Any applications over the above onshore area may be subject to the provisions of the Commonwealth Native Title Act 1993 and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA. It should, however, be noted that the right to negotiate does not apply offshore.

Applicants should also be aware that the area available for application is subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available as part of the release package.

An information package on the release area detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release area and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum and Royalties Division, Department of Industry and Resources by contacting the Senior Titles Officer (Releases) on (08) 9222 3130.
