The Fisheries Act, 1905-21.

PROCLAMATION

WESTERN AUSTRALIA.

By His Excellency Sir James Mitchell, K.C.M.G., Lieutenant-Governor in and over the State of Western Australia and its Dependencies in the Commonwealth of Australia.

C.S.D. 647/37.

WHEREAS by Section 9 of "The Fisheries Act, 1905-21," it is provided that the Governor may by Proclamation prohibit all persons from taking any fish whatsoever in every or any specified portion of Western Australian waters, by means of fishing nets and fishing lines, or either of such means of capture, or by any other specified means of capture, for any specified term: Now, therefore I, the said Lieutenant-Governor, by and with the advice and consent of the Executive Council, do hereby, in exercise of the powers aforesaid and of every other power enabling me in this behalf, proclaim and declare as follows:—That all those portions of Western Australian waters defined in the Schedule hereto shall be closed against the use of fishing nets as from the 1st day of October, 1937, until the 30th day of September, 1938, inclusive.

Schedule.

(1) That portion of the waters of Geographe Bay extending in an easterly direction from the eastern side of the shore end of the Busselton pier or jetty to a point on the foreshore half a mile from the said pier or jetty and half a mile into the waters of the said bay.

(2) That portion of the waters of Geographe Bay extending in a westerly direction from the western side of the shore end of the Busselton pier or jetty to a point on the foreshore one and a half miles from the said pier or jetty and half a mile into the waters of the said bay.

Given under my hand and the Public Seal of the said State, at Perth, this 27th day of October, 1937.

By His Excellency’s Command,

J. WILLCOCK,
Premier.

GOD SAVE THE KING ! ! !
tion prohibit all persons from taking any fish whatsoever in every or any specified portion of Western Australian waters by means of fishing nets and fishing lines, or either of such means of capture, or by any other specified means of capture, for any specified term. Now, therefore I, the said Lieutenant-Governor, by and with the advice and consent of the Executive Council, do hereby, in exercise of the powers aforesaid and of every other power enabling me in this behalf, prohibit all persons from taking any fish whatsoever by means of fishing nets in any of the portions of Western Australian waters specified in the Schedule hereto for a period of twelve months as from the 15th day of November, 1937.

Schedule.

(1) All that area of Western Australian waters (Cockburn Sound) commencing at the western extremity of Sydney street and extending southward to a point a quarter of a mile south of the jetty fronting Douro road and to a width of half a mile from high-water mark.

(2) That area of Western Australian waters (Cockburn Sound) commencing at a point on the foreshore a quarter of a mile north of Robb's Jetty and extending to a point on the foreshore a quarter of a mile south of Robb's Jetty, and extending into the waters aforesaid to a distance of a quarter of a mile from high-water mark.

Given under my hand and the Public Seal of the said State, at Perth, this 27th day of October, 1937.

By His Excellency's Command,

J. WILLCOCK,
Premier.

GOD SAVE THE KING ! ! !

LAND OPEN FOR SELECTION.

IT is hereby notified, for general information, that the areas scheduled hereunder are available for selection under Act V. of 'The Land Act, 1935-36,' and the Regulations appertaining thereto, subject to the provisions of the said Act.

Applications must be lodged at the Land Agency Office as specified hereunder not later than the date specified, but may be lodged before such date if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board. Should any lands remain unsold at such time as will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

If an applicant wishes to appear before the Land Board in person he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excessation Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a H俺estrict Farm from any location may take the balance thereof, if any, under Conditional Purchase.

All marketable timber, including sandalwood and mallet, is reserved to the Crown, subject to the provisions of Clause 18 of the Regulations.

The Board Districts Act, 1919-1934.

Upper Blackwood Road Board—Building By-laws.

P.W. 867/37.

WHERAS by "The Road Districts Act, 1919-1934," the Board of every District is empowered to make By-laws for the regulation of any of the matters mentioned in the said Act; and whereas the Upper Blackwood Road Board, in pursuance of the powers vested in the said Board by virtue of the said Act and of every other authority enabling it in that behalf, doth hereby make and publish the following By-law:

**BUILDINGS.**

Interpretation.

2. "Basement" means a storey or portion of a storey partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these By-laws).

3. "Board" means the Upper Blackwood Road Board.

4. "Cellar" means a storey or portion of a storey below the ground level the ceiling of which is less than five feet above the adjoining ground.

5. "Cement mortar" means a mortar composed of one part of cement to three or fewer than three parts of sand.

6. "Commercial buildings" mean a building used or constructed or adapted to be used wholly or in part for commercial purposes.

7. "Dwelling-house" means a building used, constructed, or adapted to be used wholly or in part for human habitation, but does not include any other than the dwelling-house of the individual or household responsible for any of a commercial building.

8. "Habitable room" means any living room, and includes all rooms intended or adapted to be used for the purpose of sleeping or eating or the cooking of food.

9. Surveyor means the person appointed by the Board for the purpose of surveying for the building, erecting, or letting building surveyor for the Upper Blackwood Road Board.

10. "Wall"—

   a. "Divisional Wall" means a wall (other than an external or party wall) which subdivides any floor of a building and which carries any load in addition to its dead weight.

   b. "External wall" means an outer wall of a building, not being a party wall even though adjoining a wall of another building.

   c. "Partition wall" means a wall subdividing any floor and not carrying any load other than its dead weight.

   d. "Flat" means a room or suite of rooms occupied or designed, intended, or adapted to be occupied as a separate domicile, or rented or let as such.

   e. "Residential flat building" means a building containing two or more flats, but does not include a row of two or more houses attached to one another, such as are commonly known as semi-detached or terrace buildings.

1. Every person intending to erect any building or alter or add to any building within the Upper Blackwood Road District shall, before commencing to erect, alter, or add to the same, make application in the form prescribed in Schedule A of this By-law and deposit with the Board two copies of the plans and specifications of such proposed building, addition, or alteration. One copy of such plans and specifications shall remain in the office of the Board as a permanent record.

2. Provided that the Board may if it sees fit dispense with the necessity for the submission of plans and specifications and refuse or dispense with the payment of the fee with an application for approval in cases of minor alterations in an existing building.

3. Provided also that any building (other than a verandah or porches) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling-house.

4. Provided also that where it is desired to make some minor alterations to a building surface, and the dwelling’s stability, lighting, ventilation, or the size of rooms, the application may in the first place be made without submitting plans or specifications, which shall however be submitted if the Board so requires.

5. All plans shall be in ink on drawing paper, tracing cloth, or snipof at least 15in. x 221/2in. in size, and specifications shall be typewritten or ink manuscript, clearly written, and on strong paper.

6. The Board will accept plans properly drawn on paper obtainable at the Office of the Board, or, alternatively, an architect’s plan, subject to the provisions of these By-laws.

7. The plans shall consist of a general plan and elevation and a locality plan.

8. The general plan shall be drawn to a scale of 8 feet to 1 inch (or any larger scale).

9. The locality plan shall be drawn to a scale of 20 feet to 1 inch (or any larger scale) on a separate sheet.

10. The locality plan shall show the relation of the buildings to the boundary of the site and to other buildings or structures thereon.

11. The specifications shall describe the construction and materials of which the building is to be built, the method of drainage, sewerage, and water supply, and state whether the material will be new or second-hand, and, if second-hand materials are to be used, shall give particulars.

12. All plans and specifications must be signed by the building owner or his duly authorised agent.

Clause 2—Fees and Permits.

No person shall commence any building, erection, or alteration or addition to any building, erection, or structure, or any alteration or addition to any building, without having obtained from the surveyor a Building Permit in the form prescribed in Schedule B of this By-law, and without first having paid to the Board the sum therein specified as the fee for such permit.

1. Where the cost of alteration does not exceed £50 the fee for a new building shall be £2.

2. For every additional 200 square feet or part thereof ..... £2

3. For alterations or additions to an existing building—

   a. Where the cost of alteration does not exceed £50 ... £2

   b. For every additional £100 or part thereof ... £2

   c. For the provision of the necessary pans, lid, and ring for each privy ... £1

Clause 3—General Provisions.

(a) Each building in a terrace of buildings or in a pair of semi-detached buildings shall be deemed to be a separate building for the purpose of this By-law.

(b) Every building shall be provided with one or more proper manholes in the ceiling, so as to give access for electrical or other fittings.

(c) The Board may reject any plans or specifications which in their opinion are not in keeping with the size and character of the adjacent buildings.

(d) Every dwelling-house shall be provided with a water storage capacity of at least 1,000 gallons, properly connected up with gutters of roof or a suitable water supply approved by the Board.

Clause 4.—Healthiness of.

(a) Every person who shall erect a building shall cause the subsoil of the site of such building to be effectively drained, wherever in the opinion of the Board the dampness of the site renders such a precaution necessary.

(b) The Board shall so direct in any particular case the whole part of the site of any building, and the dwelling shall be covered with a layer of good sound and weatherproof metal, nailed solid, and at least four inches thick.

(c) The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.
Clause 5.—Position of Building on Site
(a) No building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any such building, shall be built, constructed, or erected within a distance of 25 feet, measured horizontally, from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided, no building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any building which is intended to be used or which shall be used as a dwelling-house, shall be built, constructed, or erected—"if of wood, within a distance of four feet six inches; if of brick, stone, concrete, or cement blocks within a distance of three feet, measured horizontally, off any street, road, land, or right-of-way, on the side of any such building.

(b) No two buildings which are intended to be used or which shall be used as dwelling-houses or residential flats shall be built or erected or constructed in the one allotment, if of wood, within a distance of 12 feet; if of brick, stone, or concrete, within a distance of six feet of each other: provided that this does not prohibit the erection of semi-detached buildings.

(c) The Board may at any time by resolution waive any of the provisions or restrictions of this clause, where the levels of the allotment or other exceptional conditions of the site make it necessary or expedient to do so in respect of any building or part of a building.

Clause 6.—Access to Rear.
Where there is no public or convenient access to the rear of the site of any building for the removal of night soil, the building shall be so designed as to leave outside the building a way, not less than four feet wide, from a public road to the privy closet, and for the removal of garbage and refuse.

Clause 7.—Outbuildings.
In case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant odours, unpleasant odours or unusual risk of fire may reasonably be expected to exist, the Board may determine in which position upon the allotment such outbuilding may be erected.

Clause 8.—Tents—Canvas Buildings.
The Board may grant, subject to conditions, or refuse permission to erect, a structure of calico, canvas, or other textile material, and if such structure is erected without the Board's permission, may order its demolition.

Clause 9.—Materials and Workmanship.
Materials which have been used in the construction of any cesspit, drain, or sewer, or which for any other reason are unsuited to health, shall not be used in the erection of any buildings. Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a firm and workmanlike manner.

Bricks used in any building shall be good, hard, and well burnt, and, if old or second-hand, shall be thoroughly cleaned and approved of by the Board before being used.

All brick or stone chimneys shall be constructed of ample size, to be well plastered or tamped inside for the height, and no timber of any description shall be allowed to be built in the brickwork. The Board may govern authority to build iron chimneys, but in erection they shall be laid on either stone or cement base, and lined three feet high with brickwork, and free from all woodwork.

Hearths of stone, brick, or cement, of approved dimensions, shall be placed in front of all fireplaces.

Stamps shall be tarred and sunk at least half their exposed length, provided that no stamp shall be less than 18 in. in the ground. Tarring is to extend for 6 in. above the ground surface. Ant stops are to be provided projecting at least 2 in. over stumps.

(3) Studs and ceiling joists shall not be less than 3 in. x 2 in., spaced not more than two feet apart, centre to centre, properly braced and secured.

Where stumps of 3 in. x 2 in. are used, the angle or corner stumps shall be of 4 in. x 3 in. or 4 in. x 2 in. studs are used, the angle stumps shall be 4 in. x 4 in.

(3) Rafter shall not be less than 3 in. x 2 in., spaced not more than 2 ft. 6 in. to centre of rafters, in case of iron roofs, and 18 in. centre to centre, in case of slate, tile, or other similar roofs.

Rafter of 4 in. x 2 in. shall be spaced not more than 3 ft., centre to centre in case of iron roofs, and 3 ft., centre to centre, in case of slate, tile, or other similar roofs.

Where rafter exceeds 12 ft. in length, an under purlin of 3 in. x 2 in. shall be required, placed underneath rafters and strutted to wallplates. All rafters must be securely braced with purlins and collar ties.

(4) Floor joists shall not be less than 4 in. x 2 in., spaced 18 in. apart, centre to centre.

(5) Floor bearers shall not be less than 4 in. x 3 in., spaced not more than 5 ft. apart.

In addition to the bearers required for the spacing, an additional bearer of 4 in. x 6 in. must be placed under each wall or partition. No framing timber in any building shall be notched or checked out, or otherwise so as to reduce its cross-sectional area more than one-sixth.

Clause 12.—Awnings and Verandahs.
The Board may require that any or all awnings or verandahs proposed to be erected over a public space shall be of the cantilever type, to an approved design.

No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

Clause 13.—Footings.
Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock foundation, to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete.

The height from the bottom of such footings to the base of the wall shall at least be equal to two-thirds of the thickness of the wall at its base: Provided that, when the footings are of reinforced concrete, the Board may permit the height to be less; and, provided further, that it shall not in any case be less than 12 in.

Footings to walls of brick in cement mortar (3 to 1) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Veranda plates shall be provided to all walls other than brick, stone, or concrete.

Clause 14.—Damp Course.
Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: provided that the Board may permit the omission of damp-proof courses from closets, outbuildings, and like structures.

Where material which is not slate, natural asphalt, or lead of minimum weight of one pound per square foot under walls not exceeding 40 ft. in height, or three pounds per square foot for walls exceeding 40 ft. in height is desired to be used, the applicant shall submit to the Board evidence that the material shall not be used has been approved of by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls; or
Damp-proof courses shall be inserted in walls in such positions and in such manner that——

(a) moisture from the earth shall be prevented from reaching the lowest floor timbers, or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than 3½ in. above such floors;

(b) where floors are below ground level, moisture shall be prevented from reaching inner face of outer walls;

(c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timbers, or the inner portion of outer faces of all walls above the underside of lower floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than 3½ in. above such floors;

(d) moisture penetrating the chimney, parapet, or other walls above that shall be prevented from reaching any part of the inner walls or the inner portion of outer face of outside walls below the upper-side of the ceiling joists in either case;

(e) moisture penetrating the outer portions of cavity walls shall be prevented from reaching the inner portion or inner face of such walls above or about window, door, and other frames or openings.

In cavity walls the cavity shall extend not less than 4½ in. below damp-proof course.

This clause shall apply to all walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

Clause 15.—External Walls.—Structure.

(a) Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, timber, or other material approved by the Board.

(b) If built of brick, stone, concrete or like the external walls shall, except where herein provided to the contrary, be not less than twelve inches in thickness:

Provided that the walls of sheds, laundries, out-houses and the like, may, if the Board so permit, be of 4½ in. in thickness for walls not exceeding eight feet in height and 6 in. for walls not exceeding 10 ft. in height.

(c) Cavity walls may be built, provided that the two sections are securely tied together by a sufficient number of wire ties or other effective method, and, when used, the combined thickness of inner and outer part shall be deemed to be the thickness of the wall.

(d) Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

(e) Where cavity walls are used, weep-holes shall be left at the foot of cavity not more than 6 ft. apart and over all damp-proof courses inserted to protect walls weep-holes shall be left not more than 3 ft. apart.

(f) Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than two storeys in height on concrete with walls of less than the prescribed thickness, if satisfied that such proposed buildings will be hygienic and structurally sound.

Clause 16.—Party Walls.

Two, but not more, residences may be erected together on one block; provided that they shall be separated from each other by a wall of concrete or of brick or stone at least 6 in. in thickness, properly reinforced to the satisfaction of the surveyor, projecting, in the case of a wooden house, at least 1 in. through the woodwork front and back, and in all cases projecting 1 ft. 6 in. at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not.

Each building or dwelling-house on a block shall be subject to the provisions of the By-laws applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least 4,000 square feet and a frontage of at least 35 linear feet to a street or road.

Clause 17.—Rooms—Size, Cubic Space.

Every person who shall erect a building shall provide that——

(a) The areas of the floor of all the habitable rooms in such building shall, taken together, average not less than 120 square feet per habitable room.

(b) A habitable room shall not in any case have a floor area of less than 80 square feet; and

(c) A habitable room shall not in any case have a cubic space of less than 600 cubic feet; provided that, in each dwelling-house of a residential flat building, there shall be at least one habitable room, the cubic space of which shall not be less than 1,596 cubic feet;

(d) No main room in any building shall be less than 10½ ft. in height from floor to ceiling.

(e) Where a skillion is erected, height at lowest side shall not be less than eight feet.

(f) All shops shall have a clear space of 12½ ft. 6 in. from floor to ceiling.

Clause 18.—Lighting and Ventilation.—Under Floors.

For the purpose of ventilation, every building shall be so erected that there shall be between the underside of every joist upon which the lowest floor of such building is laid and the surface of the ground or of the building, or of the ground or site of the building the clear space of 12½ ft. at least in every part, and such building shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air bricks or other effectual method: Provided that, where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

Clause 19.—Air Bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at least of unobstructed ventilation to the entry air by means of air bricks situated at or near the level of the ceiling or any other efficient means.

Clause 20.—Rooms, Windows.

Every habitable room or room or above in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry, and privy closet shall have at least one vertical window opening directly to the outside air. One half of at least such window shall be constructed to open to its full extent and so that the opening shall extend to the top of the window.: Provided that in a pantry any other system of ventilation may be substituted for windows, if the Board be satisfied that such system is equally efficient.

Clause 21.—Size of Windows.

The window or windows of any room shall have a superficial area clear of the sash frame of not less than one-tenth of the floor area of the room.

Clause 22.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

Clause 23.—Windows.

Any window the top of which is more than twelve feet above either the ground of an external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

Clause 24.—Drainage Levels.

(a) Every person who shall erect a building shall construct the lowest storey of such building at such a level in which the Board it may be practicable to construct a drain sufficient for the effective drainage of such building.

(b) No person shall build or erect, or cause or permit to be built or erected, any building, erection, tent, or addition to any building, erection, or tent on any land unless and until it is satisfied that the proposed building, erection, tent, or addition, and the site and curtilage can be properly drained.

(c) No water is to be discharged on to the surface of any footpath.

(d) The plans for a building shall include provision for carrying off rainwater from the roof thereof without causing dampness in the walls or foundations.
Clause 25.—Miscellaneous.

The Board may permit the enclosure and use of any public place in connection with the building or taking down of a building, or the alteration or the repair of a building.

Clause 26.—Skylights.

The Board may order the alteration or repair or both of any skylight in any building, if such skylight be in the opinion of the Board in such condition as to be detrimental to health or dangerous.

Clause 27.—Existing Buildings.

If in the opinion of the Board any building has been allowed to fall into an unsafe or an insanitary condition, either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier of such building, and, in the event of no action being taken within seven days by the said owner or occupier to remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier shall be liable for all charges incurred in doing the necessary works, and, meantime, in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice, shall remove the building within seven days; failing this he will be liable to a fine, as hereinafter mentioned, for not removing building after receiving notice. The Board may remove same and charge the owners with the cost of so doing, and recover the same in any court of competent jurisdiction, and/or sell the material to cover the cost of taking down.

Clause 28.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the district to and erected or re-erected in another part thereof, unless the owner or person carrying out the same shall first obtain written permission from the Board to do so. Before such permission shall be granted, not less than seven clear days' notice in writing shall be given to the Board or surveyor of the desire to remove and erect or re-erect such building or erection; such notice shall contain or be accompanied by the following:

(a) particulars of the situation of building at which it is proposed to remove;

(b) particulars of the situation and plan of the land upon which it is proposed to erect or re-erect or place such building thereon, and a tracing copy of such plan, to be retained by the Board;

(c) a plan giving the dimensions of the building, and any proposed alterations or additions thereto, and a tracing copy of such plan, to be retained by the Board;

(d) a specification giving the particulars of the construction of the existing building, and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected;

(e) evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the health officer of the Road District from which the building is proposed to be removed that, within a reasonable time prior to the date of removal, no case of disease of an infectious or contagious nature has occurred therein;

(f) such further particulars in writing regarding the same as shall be sufficient to enable the Board or its surveyor to determine if all the provisions of any Act of Parliament, By-law, or Regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building, when erected or re-erected, shall comply with the provisions of the By-law as applicable to new buildings. No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the District. No removed building shall be occupied until the surveyor shall have certified in writing that all the provisions of the By-law have been observed and complied with in respect to such building. Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands; but if in its altered position, it shall comply in all respects with this By-law, and that in the progress of such removal the building be not taken on to any street, road, or public place.

Clause 29.—Proportion of Site which may be Covered.

A dwelling-house, together with its appurtenances, to be erected on an allotment, shall not occupy more than two-thirds of the occupied area and the remaining area of the occupied area shall not be less than 500 superficial feet: Provided that this shall not prevent the Board from granting approval to the erection of a dwelling-house covering more than two-thirds of the occupied area with a minimum of unoccupied area of less than 500 superficial feet in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be: Provided also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit the building, which is to be a shop and dwelling combined, to occupy not more than four-fifths of the allotment subject to the un-occupied area being not less than 500 square feet. After the adoption of this By-law, all subdivisions or resubdivisions of allotments must be such as to have a frontage to a street or road of not less than 66 linear feet and a depth of not less than 165 linear feet, or, with such measurements, to equal one quarter of an acre in area. Such subdivisions or resubdivisions must be lodged with the Board for approval before commencing to build, and shall apply the whole of the Upper Blackwood Road District without special approval of the Board. A shop shall not be built on land having a frontage of less than 15 ft. to a street or road and an average depth of 130 ft.; these shall be back access from right-of-way 10 ft. at least. For the purposes of this clause the Board may agree to a subdivision with frontages less than 66 ft., but notwithstanding anything hereinbefore provided to the contrary, the Board may, on application in writing setting forth the ground for such approval, under special circumstances, and for special causes, and at a meeting of which due notice has been given to each member, declare that the provisions of the By-law, either in whole or in part, shall not apply to any particular area of land.

No building shall be erected in such a position that it shall lie between another building or any part thereof and street, unless such other building has a direct and unobstructed access to some other street at least 10 ft. wide.

Clause 30.—Space outside Windows on side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or door opening, that wall shall be set back (throughout its whole length) fronting the building from the street line of the allotment at a distance of not less than 6 ft. from the street line of the allotment, unless such other building has a direct and unobstructed access to some other street at least 10 ft. wide.

Clause 31.—Kitchen, Laundry and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with wash-tubs and copper or other means of washing clothes, and the water laid thereto. The floors and surfaces of the bathrooms on any floor, and of laundries, when above the ground floor, shall be of imperious material, properly, grated and drained. The water shall be supplied and drained by means of watermains and copper, and both shall not be placed in the kitchen. One bathroom in each dwelling-house shall have at least 30 square feet of floor area, and a combined bathroom and laundry shall have at least 50 square feet of floor area. Provided that the Board may in any case where it considers that a bathroom and laundry could be dispensed with, exempt any building from the above provision, but such exemption shall be given by resolution of the Board.
Clause 32.—Enforcement, Inspection, Cutting into Building.

The Board may order the opening or cutting into or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any By-law, and, in the event of the work being found to have been done in contravention of the Act or the By-laws, the person doing the work shall be required to comply with the Act or the By-law, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the By-laws. In the event of the work being found to have been done in accordance with the requirements of the Act and the By-laws, the cost of such pulling down, opening, or cutting into, as well as the cost of reinstatement, shall be borne by the Board.

The surveyor or his representative shall have power to enter at any time upon any building in the course of erection, for the purpose of inspecting the said building, and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in the course of construction.

Clause 33.—Inspection before Occupation.

Before permitting any person to use or occupy any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Board. Forthwith upon receipt of notice as aforesaid, the Board shall instruct the building surveyor to make an inspection, and such surveyor shall inspect and report to the Board whether or not the building has been erected in accordance with this By-law and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site. Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this By-law is being complied with.

Clause 34.—Penalties.

Any person who erects or builds in contravention of this By-law or any person who neglects to comply with any provision set forth therein, shall on conviction be liable to a penalty not exceeding Ten pounds (£10).

Clause 35.—Repeal of previous Building By-laws.

All building By-laws previously passed by the Upper Blackwood District Road Board are repealed from date of gazettal of this Building By-law.

ROAD DISTRICTS ACT, 1919-33.
Koorda Road Board.

Notice of Intention to Borrow.
Proposed Loan of £1,250.

NOTICE is hereby given that the Koorda Road Board propose to borrow the sum of £1,250, to be expended on works and undertakings in the Koorda Road District, the said works and undertakings being the erection and furnishing of offices.

The plans and specifications, and the estimates of the cost of the said works and undertakings and statement showing the proposed expenditure of the money to be borrowed, including the cost of supervision and initial expenditure in connection with the raising of the Loan, are open for inspection at the Office of the Koorda Road Board, situate Koorda, for one month from the publication hereof, between the hours of 9 a.m. to 12 p.m. and 1 p.m. to 5 p.m. on week days, except Saturdays, and on Saturdays from 9 a.m. to 12 p.m.

The amount of £1,250 is proposed to be raised by the sale of Debentures, repayable with interest by thirty equal half-yearly instalments over a period of fifteen years after the date of the issue thereof, in lieu of the formation of a Sinking Fund.

The Debentures shall bear interest at a rate not exceeding 4½ per centum per annum, payable half-yearly.

The amount of the Debentures and interest thereon is to be paid at the Commonwealth Bank of Australia, Perth.

Dated the 26th day of October, 1937.
