- (1A) The condition imposed on a practising certificate by rule 13B(1) or (2) is varied to reduce the number of

CPD points the local legal practitioner is required to earn during a CPD period to zero if —

- (a) the practitioner has successfully completed an approved practice management course during that CPD period; and
- (b) the practitioner has not satisfied the condition imposed under rule 13B(1) or (2) during a previous certificate year by completing an approved practice management course.

**6. Part 2 Division 2A inserted**

After rule 18 insert:

**Division 2A — Condition on local practising certificate:  
practise as principal of law practice**

**Subdivision 1 — Preliminary**

**18A. Terms used**

In this Division —

*approved PMC* has the meaning given in rule 18I;

*PMC condition* means the condition imposed on a local practising certificate by rule 18C(1)(a);

*PMC provider* means a person, body or group of persons approved as a PMC provider under rule 18G.

**18B. Application of Division**

This Division applies in respect of a local practising certificate that is granted or renewed on or after 1 July 2016.

**Subdivision 2 — Local practising certificates**

**18C. Condition on local practising certificate: practice management**

- (1) A local practising certificate that is an unrestricted practising certificate is subject to the following conditions —
  - (a) the local legal practitioner must not practise as the principal of a law practice unless the practitioner has successfully completed a course in practice management that is an approved PMC;
  - (b) the local legal practitioner must not commence practise as the principal of a law practice unless the practitioner has given notice to the Board in an approved form of the practitioner's intention

to commence practise as the principal of a law practice.

- (2) However, a local practising certificate is not subject to the PMC condition if the local legal practitioner was practising as the principal of a law practice, other than as a restricted practitioner, immediately before 1 July 2016.

**18D. Request to revoke or vary PMC condition**

- (1) A local legal practitioner may request the Board to —
  - (a) revoke the PMC condition on the practitioner's local practising certificate; or
  - (b) vary the PMC condition on the practitioner's local practising certificate to allow the practitioner to commence practise as a principal of a law practice subject to completion of an approved PMC within a specified time; or
  - (c) vary the PMC condition on the practitioner's local practising certificate to allow the practitioner to commence practise as a barrister.
- (2) A request is to be in a form approved by the Board.

**18E. Board may revoke PMC condition**

- (1) On a request made under rule 18D(1)(a), the Board may revoke the PMC condition on a local practising certificate if the Board is satisfied that the practitioner —
  - (a) has the skills or experience to practise as the principal of a law practice; and
  - (b) is a fit and proper person to practise as the principal of a law practice.
- (2) Without limiting subrule (1), the Board may be satisfied that a practitioner has the skills or experience to practise as the principal of a law practice if the practitioner —
  - (a) holds a practising certificate in another jurisdiction that allows the practitioner to practise as the principal of a law practice; or
  - (b) has successfully completed a qualification that the Board considers is at least equivalent to an approved PMC; or
  - (c) has prior learning experience that, in the opinion of the Board, demonstrates that the practitioner is suitable to practise as the principal of a law practice.

**18F. Board may vary PMC condition**

- (1) On a request made under rule 18D(1)(b), the Board may vary the PMC condition on a local practising certificate if the Board is satisfied that —
  - (a) it is not reasonably practicable for the practitioner to complete an approved PMC before commencing practise as the principal of a law practice; and
  - (b) the practitioner is otherwise a fit and proper person to practise as the principal of a law practice.
- (2) On a request made under rule 18D(1)(c), the Board may vary the PMC condition on a local practising certificate if —
  - (a) the practitioner holds a practising certificate that is subject to the condition that the practitioner only practise as a barrister; and
  - (b) either —
    - (i) the practitioner has successfully completed a course in respect of practise as a barrister that has been approved by resolution of the Council of The Western Australian Bar Association (Inc.) or an equivalent body (a *Bar Readers Course*); or
    - (ii) the practitioner has given to the Board a written undertaking that the practitioner will complete a Bar Readers Course within the period of 2 years or a further period allowed by the Board; or
    - (iii) the Board is satisfied that the practitioner should not be required to undertake a Bar Readers Course because the practitioner has the skills or experience to practise as a barrister.

**Subdivision 3 — Other matters about practice management****18G. PMC providers**

- (1) The Board may approve any person, body or group of persons as a PMC provider.
- (2) The Board may audit, or cause to be audited, a person, body or group of persons approved as a PMC provider under subrule (1) in relation to the provision by the PMC provider of practice management courses.

- (3) An approval under subrule (1) —
  - (a) may be granted subject to any conditions the Board thinks fit; and
  - (b) takes effect from the day specified in it, which may be before the day on which it is granted; and

**CONSERVATION AND LAND MANAGEMENT ACT 1984**  
**PROPOSAL TO RESERVE WESTERN AUSTRALIAN WATERS INDICATIVE**  
**JOINT MANAGEMENT PLAN**

Proposed North Kimberley Marine Park

Notice is hereby given under section 14 of the *Conservation and Land Management Act 1984* (CALM Act) of a proposal to reserve Western Australian waters under CALM Act section 13(1) as a marine park in the north Kimberley area. Notice is also given that it is proposed that the marine park will be classified as Class A under CALM Act section 13(4).

An indicative joint management plan has been prepared in consultation with traditional owners outlining how the proposed North Kimberley Marine Park will be managed. This plan includes a map and details of the proposed boundaries, marine park management zoning and management strategies for the proposed marine park. It is proposed that the park will be jointly managed by Wunambal Gaambera, Balangarra, Miriuwung Gajerrong, Wilinggin traditional owners and the Department of Parks and Wildlife. The proposed park will be reserved subject to compliance with the *Native Title Act 1993* (Commonwealth). In addition, Section 57(2) of the CALM Act requires the preparation of management plans under the CALM Act to have the objective of protecting and conserving the value of the land to the culture and heritage of Aboriginal persons.

Notice is also given under section 14 of the CALM Act to advise that the *Proposed North Kimberley Indicative Joint Management Plan* is available for public comment.

Marine parks are created to protect natural features and aesthetic, scientific and educational values while at the same time enabling compatible recreational and commercial uses. The statutory purpose of marine parks is provided in CALM Act section 13B(1).

Situated in the Indian Ocean and the Timor Sea, the proposed North Kimberley Marine Park comprises Western Australian waters, the airspace above those waters, the seabed below those waters, and the subsoil to a depth of two hundred metres below that seabed that are—

- (a) contained within and bounded by a line—
- (i) commencing in the Bonaparte Archipelago west of the Coronation Islands at the intersection of the westernmost south-western boundary of the Wanjina-Wunggurr Uunguu Part A Native Title Determination Area and the seaward limit of the coastal waters of the State; and
  - (ii) extending generally north-easterly, generally easterly, generally south-easterly and again generally easterly along that limit, past Maret and Cassini islands, Long Reef and East Holothuria Reef, around Cape Londonderry into Joseph Bonaparte Gulf, past King Shoals and Medusa Banks, to the intersection of that limit and the boundary of the scheduled area for Western Australia;
  - (iii) thence southerly along that boundary to the northernmost point of the border between the State of Western Australia and the Northern Territory of Australia;
  - (iv) thence southerly along that border, and along the high water mark of any islands where that water mark intersects and extends west of that border, to the intersection of that border and the high water mark of the mainland;
  - (v) thence generally westerly, generally north-westerly and generally south-westerly along that water mark, and along the boundary of Lot 671 shown on Landgate Deposited Plan 240266 (part Ord River Nature Reserve) where that water mark intersects that lot, and including all the intertidal area adjacent to the island that contains Shakespeare Hill, Balau and Cone Hill, to the intersection of that water mark and the boundary of the Port of Wyndham at Cape Domett;
  - (vi) thence north-westerly along that boundary to the high water mark on Lacrosse Island;
  - (vii) thence generally easterly, generally north-westerly and generally south-easterly along that water mark to the boundary of the Port of Wyndham on the south-western side of that island;
  - (viii) thence westerly along that boundary to the high water mark at the southern extremity of Cape Dussejour;
  - (ix) thence generally northerly, generally north-westerly, generally westerly and generally south-westerly along that water mark, past Buckle Head and Cape Bernier, around Cape Londonderry, past Napier Broome Bay, Cape Bougainville, Admiralty Gulf, Cape Voltaire, Montague Sound and Prince Frederick Harbour, to the intersection of that

water mark and the westernmost south-western boundary of the Wanjina-Wunggurr Unguu Part A Native Title Determination Area at the point nearest latitude 15°09'30" south longitude 124°50'27" east;

- (x) thence north-westerly along that boundary, and along the high water mark where that water mark intersects and extends north of that boundary, to the point of commencement; and
- (b) within that line, seaward of the high water mark of all islands.

The proposed marine park will be reserved subject to compliance with the *Native Title Act 1993* (Commonwealth).

#### NOTES—

- (1) All geographic coordinates are expressed in terms of the Geocentric Datum of Australia 1994 (GDA94).
- (2) Boundary positions as described are subject to survey.
- (3) 'Western Australian waters' means all waters—
  - (a) that are within the limits of the State; or
  - (b) that are 'coastal waters of the State'.
- (4) 'coastal waters of the State' has the meaning given to that term in the *Coastal Waters (State Powers) Act 1980* (Commonwealth) section 3(1).
- (5) 'scheduled area for Western Australia' has the meaning given to that term in the *Offshore Petroleum and Greenhouse Gas Storage Act 2006* (Commonwealth) Schedule 1.
- (6) 'High water mark' means the ordinary (mean of) high water mark at spring tides as defined in the *Land Administration Act 1997* section 3(1).
- (7) 'Wanjina-Wunggurr Unguu Part A Native Title Determination Area' means the area the subject of the determination of native title made by the Federal Court of Australia in *Goonack v State of Western Australia* [2011] FCA 516.
- (8) 'Port of Wyndham' means the area defined in the *Marine and Harbours (Port of Wyndham) Proclamation 2015*, *Government Gazette* of Western Australia, 17 July 2015, pp 2882-2883.

Under CALM Act section 62(1a), the proposed North Kimberley Marine Park is intended to be zoned for management purposes by classifying areas within it as general use area, sanctuary area, special purpose area for recreation and conservation, and special purpose area for cultural heritage.

The purpose of the special purpose areas (cultural heritage) is to provide for the recognition and protection of sites and values of high cultural significance to traditional owners while continuing to allow for compatible recreation and commercial uses. The following activities are considered to be incompatible with the purpose of these areas: ground-disturbing mineral and petroleum exploration and development; ship loading and other mining related infrastructure (e.g. ship loading docks, cabling or pipelines); artificial structures (e.g. artificial reefs); dredging and dredge spoil dumping; and wildlife/fish feeding.

The purpose of the special purpose areas (recreation and conservation) is to provide for conservation of ecologically and culturally important marine ecosystems, while continuing to allow for recreation, tourism and compatible commercial activities. The following activities are considered to be incompatible with the purpose of these areas: commercial gillnet fishing; commercial prawn trawling; ground-disturbing mineral and petroleum exploration and development; ship loading and other mining related infrastructure (e.g. ship loading docks, cabling or pipelines); artificial structures; dredging and dredge spoil dumping; and wildlife/fish feeding.
